

# RESILIENT FLOOR COVERING

---

## CARPENTERS & CONTRACTORS

Carpenter Contractor Alliance  
of Metropolitan New York

# QUALITY AND PERFORMANCE TO STAND ON

Local Union 2287 floor coverers and contractors that employ its members provide quality installations by the best trained professionals in the industry. Our resilient floor coverers and contractors bring core skills for proper floor preparation, installation and finishing procedures to carpet, resilients, resinous flooring, hardwood flooring, substrate preparation, self-leveling, artificial turf and athletic surfaces, sanitary flooring for healthcare facilities and so much more.

Local Union 2287 floor coverers and contractors meet your most complex needs by providing:

## SKILL & PRODUCTIVITY

We do jobs right the first time. Local Union 2287, teamed with the best floor covering contractors in the industry, proudly utilize a meticulous, skilled and reliable workforce. With required certifications and re-certifications on the most up-to-date techniques, we provide speed, precision and quality installations without failure.

## LEADERSHIP

Top-of-the-line forepersons, supervisors and management who understand communication and organization make for the most efficient, non-disruptive projects. Through career-long training, we continuously improve the skill and productivity of our floor coverers to ensure superior installations.

## FLEXIBILITY

Our team of experienced contractors and professionals can install a vast variety of flooring materials on residential, commercial and institutional projects.

## CUSTOMER SATISFACTION

A skilled, reliable crew keeps the customer satisfied while minimizing repairs and call-backs. Delivering error-free installations saves time and money on repairs.

## RELIABILITY

Our workforce and contractors are readily available to cover the installation of all flooring materials in New York City and Nassau, Suffolk, Westchester, Rockland, Orange, Dutchess and Putnam counties.

## TRAINING

Local Union 2287 and its contractors partner to offer the highest quality of training and experience in the floor covering industry. All employees are required to complete four years of in-depth apprenticeship training. This training includes classroom instruction taught by veteran instructors and on-site experience working with the full spectrum of floor covering materials. Experienced floor coverers participate in career-long continuing education in a vast array of subjects to stay current with industry technology and advancements. Our training facility also offers extensive safety and health training.

# STEP INSIDE OUR CLASSROOM

**“Our craft is required everywhere. There is always a floor to walk on, whether it is elaborately patterned carpet in hotels, wooden gym floors, VCT in classrooms, resinous flooring in subway stations or artificial turf on athletic fields.”**

**KEVIN FLEMING**  
PRESIDENT, RESILIENT FLOOR COVERERS LOCAL UNION 2287

INSTALL (International Standards and Training Alliance) is a North American alliance of flooring mills, manufacturers, consultants, associations and contractors. Through comprehensive training and certification, we continuously improve the skill and productivity of our floor coverers to ensure superior flooring installation.

Our four-year curriculum is created by the United Brotherhood of Carpenters International Training Fund, and is delivered through classroom instruction and hands-on training. Content stays current with emerging trends, including best practices in occupied healthcare facilities, green building awareness and sustainability.

INSTALL constantly teams with leading mills and manufacturers to ensure that the curriculum meets current labor needs in the floor covering industry. INSTALL-certified floor coverers leave the program with confidence and pride in their training, professionalism and work. Ultimately, they are trained to maximize productivity so that contractors remain competitive in the industry.

**“There is no better trained and skilled workforce in our industry than union floor covering craftsmen and craftswomen. The training and certification they acquire through the INSTALL program is second to none.”**

**DAVID MEBERG**  
PRESIDENT, GREATER NEW YORK FLOOR COVERERS ASSOCIATION

## Our passion to lead and train:

### MISSION

INSTALL aims to ensure the continued health and prosperity of the North American floor covering industry, to demonstrate a commitment to quality installations, and to enhance the industry's reputation. Our focus is simple – to teach the fundamentals of our trade to enhance the level of technical floor covering skills and to meet the different needs of contractors and specifiers as each group functions within the industry.

### INSTALL WARRANTY

When you specify an INSTALL Warranty Contractor, the work is backed by the industry's only additional, free,

third-party, extended warranty on labor. We believe so much in the performance of our trained flooring installers that our warranty is in place to guarantee satisfaction.

Hiring an INSTALL Warranty Contractor is its own insurance policy. A customer buys peace of mind and a guarantee that each flooring project is installed correctly the first time. INSTALL has underwritten hundreds of millions of dollars in floor covering installations since the inception of the INSTALL Warranty on Labor, and there hasn't been a single claim made to-date against our warranty. This can only be accomplished through the efforts of Warranty Contractors that invest in training and certification

for their installers. Through the Warranty on Labor, INSTALL stands behind every job completed by Warranty Contractors - guaranteeing work we can all take pride in.

### TEAMWORK

Our alliance partners, made up of more than 100 mills, manufacturers, flooring consultants and associations have a vested interest in participating in the INSTALL training program and contributing to its curriculum. Together we ensure that installers train with the exact products they will use in the field, and receive the training that is specific to those products.
