STAY COMPETITIVE

Call on millwrights from Local Union 740 and their contractors to deliver precision and productivity to every job. Put the best millwrights in New York to work on your next project.

We are trained to solve problems and complete tasks with superior skills, to understand new technology and possess specialized talents to address challenges that surface during a project. Local Union 740 and its contractors jointly sponsor apprenticeship training and continuing education to assure all professional millwrights are trained in the latest technology so that your needs are met with the best in the business.

Local Union 740 millwrights and its contractors meet your most complex needs by providing:

DIVERSITY

We are versed in skills for industries including automotive, aerospace, food processing, lumber, pulp and paper, material handling, mining, nuclear power stations, petrochemical, steel and alloy, pharmaceuticals, mechanical construction, and more.

FLEXIBILITY

From troubleshooting industrial machinery to operating hoisting and lifting devices, we have the training, experience and skills to do the job efficiently.

PRODUCTIVITY

We work according to a professional attitude, which fuels a work ethic that combines productivity with a commitment to quality.

COMPETITIVENESS

A wide range of exacting skills allow you to bid on the challenging jobs that your competitors may not be equipped to tackle.

RELIABILITY

Disciplined crews are available where, when, and for as long as they're needed.

ACCURACY

Certified specialists are trained in the latest products and techniques in every discipline, from optical alignment to welding.

SAFETY

Intense safety training helps create the safest possible work site.

LEADERSHIP

Top-notch forepersons and supervisors understand how to get the best from a crew.

PROFESSIONALISM

Union staff members are dedicated to providing a professional presence and work product at every job site.

EXCEED YOUR EXPECTATIONS

See, first hand, why Local Union 740 millwrights and their contractors are frequently recognized for their superior qualifications, and are routinely called upon to tackle the toughest and most highly specialized projects across New York.

We offer these assurances because we are:

SUPERIOR IN SKILLS AND EXPERIENCE

Union training centers specialize in the type of instruction that creates meticulous, productive professionals who have been trained, tested and certified to prove their competence. A full menu of skill enhancement courses helps to keep professionals on top of industry advances. Local Union 740 millwrights and their contractors have superior experience in skills such as motor alignment, rigging, welding, inspection, crane operation, precision optical alignment, conveyor system installation and maintenance, power generation equipment and much more.

TEAMWORK-ORIENTED

It's your job to manage your project. It's our job to staff it. We build partnerships based on respect and trust. We provide skilled, responsible millwrights to meet the challenges of any project. Our goal is to quickly discuss and solve any problems that may arise so that your project will remain on target.

As partners, we develop contracts and agreements to fit any project. We provide:

- Whole-project manpower or specialty staffing
- Flexible assignments

No slow-downs. No disputes. No interference with project management. Just skill and productivity.

AVAILABLE

We are ready for a range of assignments within New York City and Nassau, Suffolk, Westchester, Rockland, Orange, Dutchess, and Putnam counties.

SAFETY-CONSCIOUS

Our safety training is developed in conjunction with OSHA to provide safety programs for a variety of specialties. We think safety is so important that we'll provide safety training for all of your employees.

GROUNDING IN TRAINING

Both apprentices and journey persons benefit from our extensive training program.

LEADERS

Educated, experienced forepersons and supervisors

are the keys to job site productivity.

THE SOLUTION

Tap our pool of precise, productive millwrights and contractors to avoid the trouble and expense of recruiting, hiring, and training workers. Prevent scrambling to find millwrights with specialty certifications, and place the assignment in the hands of professionals.
